

TAPP ME Android (Worker & Supervisor) - Bug #10685

Android --> Login --> Home screen --> Out of Boundary --> if the worker is out of the boundary then the siren should play continuously but Right now only the siren playing once instead of continuously.

Description			
Issue Description:			
if the worker is out of the boundary then the siren should play continuously but Right now only the siren playing once instead of continuously.			
(except if the worker is approved to go outside then the siren should not play )			
See attached screenshot/screen Record:
