Description

The screenshot shows a web browser window with the URL `psc-dev.digitalnoticeboard.biz/register`. The browser's developer tools are open, displaying a PHP error message: `Illuminate\Database\QueryException SQLSTATE[22001]: String data, right truncated: 1406 Data too long for column 'you_know_about' at row 1`. Below the error message, the SQL query is visible: `INSERT INTO `application_member` (`application_type_id`, `name_of_business`, `legal_status`, `date_of_registration`, `sector`, `No_of_employees`, `registered_offic`. The code editor shows the following PHP code: `Sector: 74 Noida 201301, Supertech Capetown, Sector: 74 Noida 201301, 8918291029, 8718290192, shubham01@yopmail.com, https://www.google.com, 9, WishWish TO Become a MEMBER OF the PSC.Wish TO Become a MEMBER OF the PSC.Wish`. The code editor also shows the file path `app/Http/Controllers/Auth/RegisteredUserController.php:227` and the following code snippet: `'supporting_document.*.mimes' => 'Each document must be a file of type: jpg, jpeg, gif, png, docx a ...); // dd($request->supporting_document);`
