Description

Issue Description:

check-in count is showing incorrectly for 7 days it should start 0-5 then 05-10 in order like as 14 days record shows

See attached screenshot/screen Record:

The screenshot displays the Bahrain Harbour Admin Dashboard. The main section is titled 'Clients Check-in' and features a line chart showing the check-in count over the last 7 days. The y-axis is labeled 'Check-in Count' and ranges from 0 to 1.0. The x-axis is labeled 'Date' and shows dates from 14-10 to 21-10. The chart shows a sharp increase in check-ins on 21-10, which is highlighted with a red box. The list of recent check-ins shows four entries for client #000-000-036 on 10/11/2024 and one entry for client #000-000-052 on 10/21/2024.
