## Description

Issue Description:

The serial number is showing incorrectly on our website need to correct the serial number issue, and also fix the bullet point issue

See attached screenshot/screen Record:

The screenshot shows a web browser window with the URL [wasco.swadhasoftwares.com/projects-in-progress/vieux-fort-water-supply-redevelopment-project](https://wasco.swadhasoftwares.com/projects-in-progress/vieux-fort-water-supply-redevelopment-project). The page content is highlighted with a red box. The highlighted text includes a list of infrastructure works and project management components.

1. Land acquisition to facilitate the construction of a water treatment plant at Grace and a water storage tank at Laborie.

2. Infrastructure works:

1. Water production facilities comprising:
  1. Two river intake structures – one at Grace and the other at Beausejour.
  2. Two water treatment plants (WTP) – replacement of the existing WTP at Beausejour and a new WTP at Grace.
  3. Four new pumping stations, located at the WTPs at Beausejour and Grace.
2. 15.7 kilometers (km) of new high-density polyethylene (HDPE) transmission mains – Beausejour to La Tourney; Beausejour to Beanfield; Augier to Laborie; Augier to Beausejour; and Beausejour to Morne Beausejour.
3. Six new storage reservoirs totaling 5,675 cubic meters (m3) – one each at Grace, Laborie, Augier and Morne Beausejour; and two at La Tourney.

1. Vieux Fort Non-Revenue Water (NRW) Reduction Programme.

1. Capacity building for staff of WASCO.
1. TA for the preparation of the Vieux Fort Watershed Management Plan.
1. Vieux Fort River Watershed Protection and Management.
1. WASCO Operational and Energy Efficiency Improvement Programme.
1. Project Management and Monitoring including Gender Impact Evaluation; and Engineering services.

The revised project scope includes additional infrastructure works comprising:

1. The replacement of an existing water treatment facility at Beausejour.
1. Transmission mains and the addition of two new water storage reservoirs.
1. The addition of a Vieux Fort watershed protection and management component, comprising reforestation, public education and awareness and TA for the

The revised project scope includes additional infrastructure works comprising:

1. The replacement of an existing water treatment facility at Beausejour.
1. Transmission mains and the addition of two new water storage reservoirs.
1. The addition of a Vieux Fort watershed protection and management component, comprising reforestation, public education and awareness and TA for the design of erosion control measures.
1. A WASCO operational and energy efficiency programme.
1. The engagement of a Community Liaison Officer.

The original project components consisted of:

1. New water production facilities comprising two river intake structures, a treatment plant at Beausejour and three new pumping stations.
1. Network transmission and distribution system upgrade consisting of 15 km of transmission mains.
1. Construction of four new water storage reservoirs.
1. A NRW reduction programme for Vieux Fort.
1. Capacity building – TA to conduct an energy audit of WASCO facilities and a TA to conduct a water audit for the Vieux Fort Water Supply System.
1. A TA for the preparation of the Vieux Fort Watershed Management Plan.
1. Project Management and Monitoring.
1. Engineering Services.
