Description

Issue Description:

I am unable to update "About your meter/understanding the meter" image and text content

See attached screenshot/screen Record:

The screenshot shows a web browser window displaying the WASCO Admin interface. The URL is wasco.swadhasoftwares.com/admin/about-meter. The page has a blue header with the WASCO logo and a user profile for Veer Singh Administrator. A left sidebar menu is visible, with 'About Your Meter / Understanding the Meter' highlighted in red. The main content area shows a form for editing the page content. The form includes an 'Image' field with a 'Choose File' button, a 'Title' field containing 'Understanding the Meter', a 'Slug' field containing 'Understanding-the-Meter', and a 'Description' field with a rich text editor. The description text reads: 'WASCO utilizes two (2) types of water meters. The type of meter is determined by its unit of measurement. • Imperial Gallons Meter: The imperial gallons meter, as its name suggests, measures consumption in gallons. The imperial gallon meters can be identified by "imp. gallons" shown on the face of the meter. • Cubic Meter: The cubic meter measures water consumption in litres and has "m3" on the face of the meter. Reading Your Domestic Meter Record all digits on the left side of the meter. These digits are usually either in "black" or "white". Subtract the previous meter reading from the current reading to obtain your consumption for the current period.' An 'Update' button is located at the bottom right of the form. The footer of the page indicates '2024 © Govt of Anguilla'.
