Description

Issue Description:

Provided data from the backend side that is not showing on the end panel

See attached screenshot/screen Record:

The screenshot displays the 'Edit New Connection Requirement' page in the WASCO admin dashboard. The 'Title' field is highlighted with a red box and contains the text 'Test demo name #123'. The 'Slug' field contains 'test-demo-name-123'. The 'Status' is set to 'Active'. The 'Description' field contains the following text: 'If Owner Of Property', 'D.C.A approval plan for all houses being built or already erected. (Note that the consumption for houses being built will be charged at the commercial rate and the customer is to inform the company on completion of construction so to change the tariff, otherwise, commercial rate will still be charged).', 'Updated land register (within 30 days) or deed of sale (copy)', 'Valid picture I.D (copy)', and '\$33.75 to conduct an estimate (non-refundable & VAT inclusive)'. A green notification banner at the top right indicates 'New connection requirement updated successfully'. The left sidebar shows navigation options like 'About Us', 'Work In Progress', and 'Services'. The bottom of the screenshot shows the Windows taskbar with the search bar and system tray.

The screenshot shows a web browser window with the URL <https://wasco.swadhasoftwares.com/wasco-services/change-of-postal-address>. The page header includes the Wasco logo and navigation links: HOME, ABOUT US +, PROJECTS IN PROGRESS +, WASCO SERVICES +, MEDIA +, HELP & ADVICE +, CONTACT US, and a REGISTER button. Below the header, there are two download links: "Download Change of Name Form" and "Download Change of Address Form". The main content area features a red-bordered box with the heading "New Connection Requirements" and a "FILL THE FORM" button. Underneath, the requirements are listed under two categories: "If Owner Of Property" and "If Not Owner Of Property".
