

PTCCB - Admin - Bug #11493

On the "Review Product Registration" page, when adding a comment and clicking the "Report Issues" button, the admin is logged out.

Target version:		Spent time:	1.00 hour

Description

The screenshot shows a web browser window with the URL `ptccb.ui.staging.digitalnoticeboard.biz/ProductRegistrationApplicationView/909`. The page displays the 'Pesticides and Toxic Chemicals Control Board' logo and a sidebar menu. A modal window titled 'Comments' is open, showing a text input field with the placeholder 'Image not uploaded'. Below the input field are three buttons: 'Approve' (green), 'Report Issues' (blue, highlighted with a red box), and 'Reject' (red). The background shows a list of product registrations with columns for 'Other', 'Prod', and 'Comments'.

On the "Review Product Registration" page, when reviewing an added product, if a comment is added and the "Report Issues" button is clicked, the admin is unexpectedly logged out of the application.
