

## Milisto - Bug #11660

The error message is incorrect when creating a new page. It says the page name is invalid, but the issue is actually with the page URL. It doesn't accept special characters like 'misha-family.'

### Description

The screenshot shows the Milisto 'create-page' interface. The browser address bar displays 'milisto.com/create-page'. The page title is 'MISHA'. The page URL is 'https://milisto.com/misha-family'. The page category is 'News and Politics'. The page description is 'klnasd'. A red error message at the bottom of the form reads 'Invalid page name characters'. The interface includes a sidebar with navigation options like 'Albums', 'Popular Post', 'Activity', 'Gift Registry', 'Reels', 'Saved Posts', 'Memories', 'My Groups', 'My Pages', 'Blog', and 'Events'. The main content area shows a user profile for 'Neha @Priya' with 7 posts, 0 following, and 0 followers. There is also a 'Trending' section for '#project' and a 'People you may know' section with profiles for 'Karan Roy' and 'Veer Singh'. The bottom of the screen shows a Windows taskbar with various application icons and system tray information.
