### Description

Issue Description:

Getting designing issue with the max amount integer length

See attached screenshot/screen Record:

The screenshot shows a web browser window with the URL <https://kococafe.digitalnoticeboard.biz/Dashboard/dashboard>. The dashboard features a line chart at the top showing revenue from 01 December to 31 December. A significant spike is visible on 03 December. Below the chart is a summary section with five cards: Revenue (34028234663852885981170418), Net Profit (-5784799892854990616798971), Transactions (5.00), Customers (5.00), and Average Receipt (6.805646932770577e+37). A red box highlights the Revenue and Net Profit cards, indicating a design issue with the long numerical values. Below this is a 'Sale By Payment Methods' section with a 'Cash' bar chart showing 730.16. At the bottom, there are 'Quick Links' and a 'Dine In/Take Away/Delivery' section with a donut chart.

### History

#1 - 12/03/2024 01:30 PM - Irfan Varis

- Assignee changed from Irfan Varis to Shreya Sharma
