### Description

Issue Description

getting "Attempt to read property Null" issue when admin deleted data from the backend side

See attached screenshot/screen Record:

The screenshot displays a web browser window with a PHP error message: "Attempt to read property 'image' on null". The error is highlighted with a red box. Below the error, the code editor shows the Blade template file "resources/views/front/resources/go\_invest\_details.blade.php" with the error occurring at line 25. The code snippet shows a Blade row structure with a column containing a "blog-classic-content" block.
