

Sakoon - Bug #11997

Counsellor login > Mark As Leave > Not able to submit the comment when counsellor changes his availability

12/18/2024 03:39 PM - Shubham J

Status:	New	Start date:	12/18/2024
Priority:	High	Due date:	
Assignee:	Mohit Rana	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour

Description

The screenshot shows the Sakoon web application interface. A modal window titled "Message" is open, displaying the text: "We have found 1 booking on this date!" and a text input field containing "Today I'm on leave because of some personal issue." Below the input field is a "Submit" button. The background shows the "Availability List" page with a "Start Date" field and "CSV" and "PDF" buttons. The browser's developer tools are open, showing a network error in the "Response" tab. The error message is: "message: 'SQLSTATE[42S22]: Column not found: 1054 Unknown column 'counsellor_msg' in 'field list' (Connection: mysql). SQL: update 'appointment_booking' set 'counsellor_msg' = 'Today i'm on leave because of some personal issue.', 'mark_as_leave' = 1, 'appointment_booking'.updated_at = '2024-12-18 10:07:04 where date('booking_date') = 2024-12-19 and ('counsellor_id' = 160) and 'delete' in (0, 3)'" and "exception: 'Illuminate\Database\QueryException'". A red arrow points from the error message to the "Submit" button in the message modal.
