

Orthocare Client Portal - Bug #12026

Language Inconsistency in Shoulder Symptom Flow. Follow the steps below & attached video

12/19/2024 04:00 PM - priyanka Sharma

Status:	Closed	Start date:	12/19/2024
Priority:	High	Due date:	
Assignee:	Shan UI Habib	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description Steps reproduce :- When Hebrew is selected as the language for the Shoulder Symptom, no question-answer options are available, and the flow directly navigates to the result screen. When the language is initially set to English and later switched to Hebrew during the question-answer flow, the questions and answers continue to appear in English instead of Hebrew.
