Description

Issue Description:

Form Heading should be on the front-end side

See attached screenshot:

The screenshot displays a web browser window with multiple tabs. The active tab is titled 'WATER AND SEWERAGE COMPANY INC'. The browser's address bar shows the file path 'C:/Users/MIPL/Downloads/1732008847_1985530376%20(1).pdf'. The main content area shows a form titled 'APPLICATION FOR SERVICE CONNECTION'. The form is divided into several sections. The top section is 'For Official Use Only' and includes fields for Date, Bill Code, Estimate#, and Route#. The next section is 'TYPE OF SERVICE REQUESTED:' and includes options for Water Supply (New Connection, Relocation to Main, Additional Meter, Account No. for existing meter) and Sewer Service. Below this is the 'NAME OF APPLICANT' field, followed by 'STATUS OF APPLICANT' (OWNER, TENANT, CONTRACTOR, OTHER) and 'SEX' (Male, Female). The form also includes fields for 'IF 2 - 4, GIVE NAME AND ADDRESS OF OWNER', 'POSTAL ADDRESS', and 'TELEPHONE/E-MAIL'. A red box highlights the 'LOCATION OF PROPERTY TO BE CONNECTED' field. The form also includes a question 'Is this residence part of a development?' and fields for 'AREA' and 'DIRECTIONS TO PROPERTY'. The Windows taskbar at the bottom shows the time as 02:49 PM on 23-12-2024.
