<b>Target version:</b>		<b>Spent time:</b>	0.00 hour

## Description

Issue Description:

Admin is able to update the form without a "Telephone Home" while the mobile number field is mandatory so it should throw validation message

See attached screenshot/screen Record:

The screenshot shows the 'Customer Masterfile Change Form Edit' page in the WASCO Admin interface. The 'Telephone Home' field is highlighted with a red box, indicating it is empty despite being a required field. Other fields like 'Account No.', 'Bill Code', 'Property Address', 'Postal Address', 'Mobile Number', 'Email ID', 'Identification Number', 'Location of Property Number', 'Customer Signature', and 'Date' are also visible.
