Description

The screenshot shows a web application interface for 'Super Admin'. The browser address bar displays 'https://eb.digitalnoticeboard.biz/apps/certification'. The application has a sidebar menu with options like Dashboard, Training Records, Authority, Certification (selected), Client Management, Reports & Analytics, Audit & Monitoring, Subscriptions, Payment, Help & Support, Settings, and Logout. The main content area features a search bar and a table of certifications. The table has columns for Id, Certification Name, Created At, No. of Authority, Status, and Action. The data rows are as follows:

Id	Certification Name	Created At	No. of Authority	Status	Action
6	Demo123	January 14, 2025	3	On	View Edit
5	React Developer	January 14, 2025	2	On	View Edit
4	React Certification	January 14, 2025	2	On	View Edit
3	React Course	January 14, 2025	3	On	View Edit
2	Java Certificate	January 14, 2025	1	On	View Edit
1	Java Course	January 14, 2025	1	On	View Edit

A red box highlights a 'Network Error' popup in the top right corner of the application. The popup has a red exclamation mark icon and a close button. The application also shows pagination controls at the bottom of the table, indicating '1-6 of 6' items and 'Back 1 Next' buttons.
