

Milisto - Bug #12264

7. Milisto (My List) should only be a list of the account holder's wish list. Other members' wish lists should be accessible individually by clicking the individual member's names within the "Members" icon. If this is not clear, please let me know.

Description

MIPL Comment:

Based on the discussion, we need to implement the following updates: Yes

1. Milisto (My List): Display the list of account holders under "Milisto."
2. Group Page: Within the group page, include a section where the list of added members is displayed.
3. Member Details: Each member in the list should have a link that allows users to connect and view their respective lists.
