

Milisto - Bug #12280

21.Client Feedback --> What is the purpose of having a “Category” with a drop-down list of items? The listed items must be changed to fit our purpose. Also, “Other” does not offer to write in my own category.

Description

MIPL Comment:

Comment : As discussed regarding the Event feature, the following updates are required: Yes

1. Category Dropdown: Add a dropdown menu for selecting a category, similar to the one implemented in the Group. Display the selected category accordingly on the page.
2. "Other" Option in Group: In the Group section, include an "Other" option in the category dropdown. When this option is selected, a field should appear, allowing users to type a custom category name.
