Description

The screenshot shows the 'Knee Assessment Flow' configuration page in the Orthocare Admin portal. The page title is 'Knee Assessment Flow' and it includes an 'Edit Assessment' button. Below the title, there is a language selector with 'English' and 'Hebrew' options. The main content area contains two assessment questions. The first question is '1 Did the pain start after a fall or an injury on the spot?'. It has two answer options: 'Yes' and 'No'. The 'Yes' option has a 'Show Result' dropdown menu and an 'Edit Result' button. The 'No' option has a 'Next Question' dropdown menu set to '3'. The second question is '2 Did the pain start after unusual activity such as gym / dancing / jumping or incorrect movement of the knee?'. It also has 'Yes' and 'No' options. The 'Yes' option has a 'Show Result' dropdown menu and an 'Edit Result' button. The 'No' option has a 'Next Question' dropdown menu set to '4'. The 'Edit Result' button for the first question is highlighted with a red box.
