

Orthocare Admin - Bug #12330

Why is the Hebrew post-assessment option appearing in the dropdown when English is selected? It should only be shown when Hebrew is selected."

01/16/2025 01:24 PM - priyanka Sharma

Description

The screenshot shows the Orthocare Admin dashboard in a browser window. The page title is "Orthocare" and the URL is "https://orthocare-admin-portal.netlify.app/dashboard/update-assessment". The dashboard has a sidebar with navigation items: Dashboard, User Management, Symptoms Management, User Profiling, About Us, Settings, and Logout. The main content area shows a "Video Link Upload" form with two input fields containing YouTube URLs. Below the form is a "Post Assessment" dropdown menu that is open, showing options: Strength, Select, Functional Impact, Strength, and DID. The background shows a flow editor with "Save Flow" and "Show Flow" buttons. The system tray at the bottom shows the date and time as 1:22 PM on 1/16/25.

English Language >
Edit Result of Post assessment > then check dropdown options

History

#1 - 01/16/2025 01:41 PM - Shan UI Habib

- Status changed from New to Resolved

This is just a text which is added in english tab.

#2 - 01/16/2025 01:43 PM - Shan UI Habib

- Status changed from Resolved to In Progress

#3 - 01/17/2025 09:05 PM - Shan UI Habib

title in for hebrew tab not getting properly will discuss with backend developer.

#4 - 01/23/2025 12:08 PM - Shan UI Habib

fixed.

#5 - 01/23/2025 06:21 PM - Shan UI Habib

- Status changed from In Progress to Resolved

#6 - 01/31/2025 12:16 PM - priyanka Sharma

- Status changed from Resolved to Closed
