

Orthocare Client Portal - Bug #12334

Pending post-assessment is not visible to the user if the assessment was completed as a guest. After logging in, the user can see their result on the symptom page but cannot view the pending post-assessment for that symptom

Target version:		Spent time:	0.00 hour
Description			
Follow the steps below - 1. Complete the assessment for a symptom that has a post-assessment scheduled from the backend. 2. On the result page, it will prompt you to save your progress. 3. Log in to an existing account from there instead of creating a new one. 4. The result will be displayed on the My Symptoms page, but no pending post-assessment will be visible
