# Voting & Police Admin - Bug #12396

Add members bulk - If i import invalid excel file then it is showing blank data against the fields on members list page. Make sure not able to upload invalid file type.

Description

When an invalid Excel file is uploaded, the system currently accepts the file but shows blank data against the fields.
If a user uploads an invalid file (e.g., wrong format, corrupted, or unsupported file type), the system should not allow the upload and instead show an error like:
"Invalid file type. Please upload a valid Excel file."
