

## Orthocare Client Portal - Bug #12511

**My symptoms - The main symptom name is displayed incorrectly. The main symptom was "Hand Pain," but it is showing as "Arm" because the symptom name "Arm" was selected in the second question's result.**

### Description

The screenshot shows the Orthocare Client Portal interface. The browser address bar displays "orthocare.netlify.app/my-symptoms". The page header includes the Orthocare logo, navigation links for "Home", "Symptoms Checker", and "About", and a language selector set to "English". The main content area is titled "My Symptoms" and lists several symptom entries. The first entry, "Arm", is highlighted with a red box and includes a "Show Result" link. Below it, a "Result" box displays "Physiotherapy / Swimming" and a "View Details" button. Other entries include "Shoulders" and "Hand Pain", each with a "Show Result" link.

Check with the "Hand Pain" symptom. In the second question, if you select "1 week ago," you will see questions related to the "Arm" symptom.

- Assignee changed from Shan UI Habib to Bharat Dhall

[Bharat Dhall](#) bhai, kindly acknowledge this case. I believe it is functioning correctly, if there is pain in another body part, a specific symptom assessment should be performed, and the result should indicate the affected area.
