Target version:			**Spent time:**	0.00 hour

Description

There were 3 products in the application: one was rejected, one was approved, and a query was raised for the third. The company user deleted the third product and resubmitted the application without adding a new product.
It should not allow me to submit the application until I add a new product. In this case, submitting the already approved application serves no purpose

History

#1 - 02/03/2025 06:07 PM - priyanka Sharma

- Subject changed from Application Submission Not Allowed Without Adding a New Product After Deleting One. check scenario below to Application Submission should not allowed without adding a new Product after deleting one. check scenario below

#2 - 02/12/2025 05:06 PM - Iram Hamdani
