Description

If an application has multiple products (e.g., 3 products), where one product is approved and the other two are pending approval, the approved product is not shown under the registered products until the other two products' statuses are fully clarified.

Steps to Replicate:
Create an application with 3 products.
Approve 1 product and keep the other 2 in pending approval.
Go to the registered products section or Home page check Total Products
The approved product does not appear under the registered products list until the other two products are clarified.
