Description

Issue Description:

place holder dd/mm/yyyy change to DD/MM/YYYY

See attached screenshot/screen Record:

The screenshot displays a web application interface for managing zones. The 'Zone' filter section includes input fields for 'Name', 'Deactive' (a dropdown), 'Start Date', and 'End Date'. Both the 'Start Date' and 'End Date' fields contain the placeholder text 'dd / mm / yyyy' and are highlighted with red boxes. The interface also features buttons for 'Filter', '+ Zone', 'Export', 'Search', and 'Reset'. The sidebar on the left lists various navigation options, and the bottom of the image shows a Windows taskbar with the system clock set to 04:56 PM on 25-02-2025.
