Description

Issue Description:

After adding zone if the applicant again adds zone then the field value does not get reset, it should be reset after adding zone

See attached screenshot/screen Record:

The screenshot shows a web browser window with the URL <https://consumeraffairs.digitalnoticeboard.biz/admin/zone/list>. The page displays a 'Zone List' table with the following data:

ID	Zone Name	Status	Actions
5	Cockburn Town	Active	[Toggle] [Eye] [Link] [Trash]
6	Fort-de-France	Active	[Toggle] [Eye] [Link] [Trash]
7	Saint George's	Active	[Toggle] [Eye] [Link] [Trash]

An 'Add Zone' modal is open, prompting the user to enter data. The modal contains the following fields:

- Zone Name: J& K
- Select Status: Active

A red box highlights the 'Zone Name' and 'Select Status' fields in the modal. The 'Add Zone' button is visible at the bottom of the modal.
