Target version:		Spent time:	0.00 hour

Description

Issue Description:

why is validation arriving while admin has already put the Question in field and change validation "title" to "Question" also change "description" to "Answer"

See attached screenshot/screen Record:

The screenshot displays a web application interface for adding a new FAQ. The main form is titled "Add Faq" and prompts the user to "Please enter the following Data". It contains two rich text editors: "Question *" and "Answer *". The "Question" field contains the text "How can I contact Consumer Affairs?". Below the "Answer" field, a red-bordered box highlights the label "body_p" and the error message "The title field is required." To the right of the form is a sidebar with a "+ FAQ" button and a table listing existing FAQs. Each row in the table has a "Status" toggle (all are turned on) and "Action" icons (edit and delete). The browser's address bar shows the URL "affairs.digitalnoticeboard.biz/admin/faq/list". The Windows taskbar at the bottom indicates the system time is 12:42 PM on 26-03-2025.
