Description

Issue Description:

Admin --> Login --> Dashboard --> User --> Add --> Submit without fill input box --> Edit --> why validation is arriving on edit while the validation is arriving on add

See attached screenshot/screen Record:

The screenshot displays a web browser window with the URL <https://affairs.digitalnoticeboard.biz/admin/user/list>. The page shows a sidebar menu on the left with options like Dashboard, Survey Management, Report, User Management (highlighted), Role, Enquiry List, Complaint Management, Feedback, and CMS. The main content area features a modal window titled "Add User" with the instruction "Please enter the following Data". The form contains five fields: "User Name *" (with error "The name field is required."), "User Email *" (with error "The email field is required."), "Select Role *" (with error "The role field is required."), "Active" (with error "The image field is required."), and "Upload Image *" (with error "The image field is required."). A green "Add User" button is at the bottom of the modal. The background shows a user list table with columns for Name, Email, Role, and Action.

Edit User

Please enter the following Data

The name field is required. The email field is required.

The role field is required.

The image field is required.

Update User
