Description

Issue Description:

Admin --> Login --> Dashboard --> CMS --> show max size length for image and validation for image gallery when admin update with big image size

See attached screenshot/screen Record:

The screenshot displays a web browser window with the URL `affairs.digitalnoticeboard.biz/admin/image-gallery/list`. The page title is "Image Gallery" and it includes a "+ Image Gallery" button. A modal window titled "Add Image Gallery" is open, prompting the user to "Please enter the following Data". The modal contains two main input areas: "Upload Image" with an "Upload Image" button, and "Select Status" with a dropdown menu currently showing "Active". A green "Add Image Gallery" button is at the bottom of the modal. In the background, a table is visible with columns: S.No., Image, Status, and Action. The table has four rows, with the first row containing the number "1". The browser's taskbar at the bottom shows the date and time as "11-04-2025 05:35 PM" and the temperature as "31°C".
