Description

Issue Description:

Store --> Login --> OTP --> Contact person details --> Edit --> Phone number place holder format should be same as login screen (7 digits)

See attached screenshot/screen Record:

The screenshot shows a web browser window with the URL 24gy.com/secure/store-panel/store-registration. The page title is "Required Store Registration Details". A progress bar at the top indicates four steps: 01 Contact Person Details, 02 Select Service, 03 Store Details, and 04 Bank Detail & Documents. The first step, "Contact Person Details", is currently active. It contains the following form elements:

- Enter Name ***: Text input field containing "Jonshon".
- Enter Email ***: Text input field containing "Jhonson@yopmail.com".
- Gender**: Radio button group with options "Male" (selected), "Female", and "Other".
- Phone Number**: A text input field containing "859-8743-458", which is highlighted with a red rectangular box.
- Edit**: A blue button next to the phone number field.
- Next**: A blue button at the bottom right of the form.

The Windows taskbar at the bottom shows the search bar, task view, and various application icons. The system tray on the right displays the temperature as 35°C and the date/time as 05:43 PM on 14-04-2025.
