Bug didn't resolve yet

#5 - 07/27/2021 11:37 AM - Minal Watmode

- File reopened 5.docx added

1 PW Use mask & change example as well

2 User name <- does not have space USERNAME and in field as well

3 Edit/Update user + details = Edit/Update user's details

4 In Mobile number- Validation msg put If Exceeding More than 10 no. (number can not be exceed more than 10 nu)

5 Maximum length should be applied

6 For phone no., zip code, mobile no., pin code for these field should not be accepted alphabets values.

- Status changed from Feedback to Resolved

#9 - 07/31/2021 12:11 PM - rajat gupta

- 1 PW Use mask & change example as well--(PW mask done, what change for example please mention.)
- 2 User name <- does not have space USERNAME and in field as well--(User Name field removed because Email is used as User Name for Login so email and User Name will be same. Validation done for Email format.)
- 3 Edit/Update user + details = Edit/Update user's details--(Done)
- 4 In Mobile number- Validation msg put If Exceeding More than 10 no. (number can not be exceed more than 10 nu)--(Done)
- 5 Maximum length should be applied--(Done)
- 6 For phone no., zip code, mobile no., pin code for these field should not be accepted alphabets values.--(Done)
