Description

Step to reproduce bug:

Test server--> MF --> Return upload--> TBR case --> applicant is not able to Re-updated form in tbr case

See attached screenshot:

The screenshots show the 'Manage Returns' interface for 'ARTI Mutual Fund LIMITED'. The top screenshot shows a table with 5 entries for the year 2016. The first entry has a status of 'TBR' and is marked as 'Late'. The bottom screenshot shows a table with 12 entries for the year 2018. The first entry has a status of 'VAL' and the second entry has a status of 'TBR'. A red arrow points to the 'Action' column of the second entry, with the text 're-updated' written next to it.
