

Curewell Therapies-Android - Bug #2785

Documents > upload document >check issues below

06/21/2022 03:55 PM - priyanka Sharma

Status:	Resolved	Start date:	06/21/2022
Priority:	Normal	Due date:	
Assignee:	shefali srivastav	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	1.00 hour

Description

1. Change success message Document uplaod successfully to "Document uplaoded successfully"
2. latest doc should shown at top
3. Make validation for invalid file types...only support file should allow to uplaod ...otherwise if we uplaod any image type after downloading it shows not supported file type
4. It takes time while tab on submit button...seems its not working...please show loader there until success message will display
5. Cancelled spelling mistake - tab on download icon ...then cancel the popup...check toast message canceled
6. we can give delete option to delete documents only the documents which are uploaded by patient only...suppose patient uploaded wrong document by mistake then he has no option to delete them...please provide delete icon there
