Target version:		**Spent time:**	0.00 hour

Description

Go with public user

Add multiple rows
Delete any from mid

Actual result:-
as the user deletes any row then the sequence of rows getting in an unmanaged way.

Expected:-
Rows number should be in sequence even user deletes any row number

NOTE:-Please, check this issue for all points in which users will do add or delete rows. (Point no-6, 7, 18, 19)

watch the attached video for more clarification.
