Target version:		Spent time:	0.00 hour
Description			
Step to reproduce:- Login with admin Skriv meddelande Click on skriv namn			
Actual result:- the system will take admin to the next page where admin can search and select the user, but as admin ticks on "Valj alla" then nothing has displayed over here. and for a list admin has to search first while name should display on that screen. See attached video for more clarification.
