Puthagam Android App - Bug #4854

App should get reload automatically if i comes offline to online. Otherwise if i not close the app & open the app it will show No book , No category found while your internet is on.

Description

Suppose my internet connection is off and i am opening the app. Currently it is not showing any banner image or anything during offline. But now i comes online & again open the same app, then still icons or banners not displaying...it always shows No category found, No Books found etc..
& tehere is no option to refresh the app. It will not work fine until i close the app. Would be great if i use automatic refresh or reload on app.
