Description

URL-> Master management > ~~Store master~~ > Store — As per the requirement, there should be mandatory 1 store by default & that store status cant be changed. Here, I've attached screenshot in that I am able changed the status of all Shops.

1. There Should be right sign at least in front of one store.
2. All three shops cant be updated at once with the sign of cross.
3. Toaster msg supposed to pops up while updating status of the store
