History

#1 - 04/19/2024 05:51 PM - Narendra Singh

- Status changed from New to Resolved

If you change image extensions from manually that image not work because that image is not converted into JPG and png format because image compress code is implemented on that module.

#2 - 04/23/2024 02:40 PM - Shubham J

- Tracker changed from Bug to QUERY

#3 - 04/23/2024 02:41 PM - Shubham J

if i change the extension of webp image to jpg, it is not taking the image.
